

Cindy van der Aa

My recent work is inspired by my travels to Chad (N'Djamena) and Mali (Bamako). I discovered many diverse cultures and expressiveness. I was pleasantly surprised by the positivity and the strong need that people have, to express themselves through art and music. I want to capture this emotion, in the moment and the movement. It reflects what is now and what is coming. Feel life, the beauty, warmth and sincerity, just for a moment.
